1533

**GOLD**  
1533

**MICHIGAN YELLOW**  
1533

## 1596 SportPro Defender Dye Blocking Grey Underbase

Excalibur 1596 SportPro Defender Grey is a first down underbase or a last down backer for cold peel transfers to block dye molecules in 100% polyester dark colored garments that are prone to dye migration. The particles in Excalibur 1596 SportPro Defender act as filters to filter out dye molecules which can migrate up through the ink film during the curing or heat transfer process. Excalibur 1596 SportPro Defender prevents dye migration on many 100% polyester fabrics where normal low-bleed plastisol inks fail miserably.

**Defender Grey**  
1596

## 533 High Opacity Collegiate Colors

**BRIGHT BLUE**  
533

**BRIGHT GREEN**  
533

**BRIGHT RED**  
533

Please note: The colors shown in this color guide are simulated representations only. Due to the differences in computer monitors, they may view differently than actual ink colors.

Fluorescent colors are not shown, as they can not be accurately simulated online.

500 Series = for high-production, wet-on-wet direct printing on 100% cotton light colors  
 550 & 533 Series = High-opacity inks easily cover 100% cotton dark fabrics.  
 1550 & 1533 Series = SportPro High-opacity, Low Bleed, Low Cure inks for 100% polyester fabrics  
 AQT Series = Aquatex waterbased inks  
 DX Series = Water Based Nylon Inks  
 PX Series = Plastex High Stretch Water Based Ink

**Excalibur**  
Technologically Superior Ink
