

Excalibur™

Technologically Superior Ink

501 Curable Reducer

501 Curable Reducer is a perfectly balanced reducer that can be used in virtually any quantity. It will not affect the cure ability of the ink. It is ideal for general viscosity reduction. It can be used to achieve a softer hand. It is recommended to be used in most direct printing plastisol inks including: Excalibur 500/550 and 600 Series Plastisol Inks.

Please Note: The print opacity may be reduced with the addition of 501 Reducer.
