Surface disinfectant, for external use only

#### **For external use only**

Please further review Safety Data Sheets for additional information

#### **INSTRUCTIONS**

- uniformly spray generous amount of Surface Sanitizer on the desired surface
- keep the surface moist with the undiluted preparation during the entire exposure time
- immediately followed spraying, uniformly rub the surface for at least 30 seconds or more
- pay special attention to main contact points and surface crevices
- for the best results, the process should be carried out twice

#### **STORAGE**

Shelf life: 12 months in originally closed containers

Store between 15-30°C (59°-86°F)

Avoid freezing and excessive heat above 40°C (104°F). Keep away from direct sunlight.

#### **FIRST AID**

**Keep out of reach of children.**

#### **External use only.**

When using this product keep out of eyes, ears, and mouth. In case of contact with eyes, flush immediately with water for at least 15 minutes and seek medical advice.

In case of an accidental swallowing, get medical help or contact a Poison Control Center right away.

Stop use and ask a doctor if irritation or rash occurs. These may be signs of a serious condition. Contact allergies are also possible.

If you do not feel well, seek medical advice immediately.
