

**SDS Revision Date:** 

10/08/2014

### 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Identity UltraMix® 7533 Fluorescent Pink
Alternate Names Plastisol Screen Printing Inks

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use Screen Printing.

Application Method See Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet

Company Name International Coatings Company, Inc.

13929 East 166th Street Cerritos. CA 90702-7666

**Emergency** 

**24** hour Emergency Telephone No. (800) 255-3924 **Customer Service: International Coatings Company,** (562) 926-1010

Inc.

## 2. Hazard identification of the product

#### 2.1. Classification of the substance or mixture

Acute Tox. 5;H313 May be harmful in contact with skin. (Not adopted by US OSHA)

#### 2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

## Warning

H313 May be harmful in contact with skin.

#### [Prevention]:

P260 Do not breathe mist / vapors / spray.

P262 Do not get in eyes, on skin, or on clothing.

#### [Response]:

P301+310 IF SWALLOWED: Immediately call a POISON CENTER or doctor / physician.

P312 Call a POISON CENTER or doctor / physician if you feel unwell.

**SDS Revision Date:** 10/08/2014

P331 Do NOT induce vomiting.

[Storage]:

No GHS storage statements

[Disposal]:

No GHS disposal statements

## 3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
Alkylsulfonic Acid Ester of Phenol CAS Number: Proprietary	25 - 50	Acute Tox. 4;H312	[1]
Calcium carbonate CAS Number: 0001317-65-3	10 - 25		[1][2]
Formaldehyde, polymer with 6-phenyl-1,3,5-triazine-2,4-diamine CAS Number: 0026160-89-4	10 - 25		[1]
Polyvinyl Chloride/Polyvinyl Acetate Copolymer CAS Number: Proprietary	10 - 25		[1]
PVC (Chloroethylene, polymer) CAS Number: Proprietary	10 - 25		[1]
Terephthalic acid, bis(2-ethylhexyl) ester CAS Number: Proprietary	1.0 - 10		[1]
Petrolatum CAS Number: 0008009-03-8	1.0 - 10	Carc. 1B;H350	[1]
Titanium dioxide CAS Number: 0013463-67-7	1.0 - 10		[1][2]
Stoddard solvent CAS Number: 0008052-41-3	0.1 - 1.0	STOT RE 1;H372 Asp. Tox. 1;H304	[1][2]

<sup>[1]</sup> Substance classified with a health or environmental hazard.

### 4. First aid measures

#### 4.1. Description of first aid measures

General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give

artificial respiration. If unconscious place in the recovery position and obtain immediate

<sup>[2]</sup> Substance with a workplace exposure limit.

<sup>[3]</sup> PBT-substance or vPvB-substance.
\*The full texts of the phrases are shown in Section 16.

**SDS Revision Date:** 

10/08/2014

medical attention. Give nothing by mouth.

Eyes Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and

seek medical attention.

**Skin** Remove contaminated clothing. Wash skin thoroughly with soap and water or use a

recognized skin cleanser.

**Ingestion** If the person is conscious, induce vomiting immediately by giving 2 glasses of water and

pressing finger down the throat. Repeat until vomit is clear, then give milk. Contact a

physician immediately.

#### 4.2. Most important symptoms and effects, both acute and delayed

Overview Exposure to solvent vapor concentrations from the component solvents in excess of the

stated occupational exposure limits may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular

weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-allergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation

and soreness with possible reversible damage. See section 2 for further details.

**Skin** May be harmful in contact with skin. (Not adopted by US OSHA)

## 5. Fire-fighting measures

#### 5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO<sub>2</sub>, powder, water spray. Do not use; water jet.

#### 5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Hydrogen chloride (if heated), carbon monoxide and carbon dioxide.

Do not breathe mist / vapors / spray.

Do not get in eyes, on skin, or on clothing.

#### 5.3. Advice for fire-fighters

In the event of fire, wear full protective clothing and NIOSH Approved Self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Move container from fire area if it can be done without risk. Use water to keep fire exposed containers cool and disperse vapors.

ERG Guide No. ----

**SDS Revision Date:** 

10/08/2014

### 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective equipment as listed in Section 8 during clean up operations.

#### 6.2. Environmental precautions

Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

#### 6.3. Methods and material for containment and cleaning up

Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in section 8.

Contain and absorb spillage with non-combustible materials e.g. sand, earth, vermiculite. Place in closed containers outside buildings and dispose of according to the Waste Regulations. (See section 13).

Clean, preferably with a detergent. Do not use solvents.

Do not allow spills to enter drains or watercourses.

If drains, sewers, streams or lakes are contaminated, inform the local water company immediately. In the case of contamination of rivers, streams or lakes the Environmental Protection Agency should also be informed.

## 7. Handling and storage

#### 7.1. Precautions for safe handling

See section 2 for further details. - [Prevention]:

#### 7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Store in cool dry place. Elevated temperatures thicken product and shorten useful life.

Incompatible materials: Composition: Avoid contact with strong acids, alkali or oxidizing agents.

See section 2 for further details. - [Storage]:

#### 7.3. Specific end use(s)

No data available.

## 8. Exposure controls and personal protection

**SDS Revision Date:**

#### 8.2. Exposure controls

Respiratory Not Required

**Eyes** Wear safety eyewear, e.g. safety spectacles, goggles or visors to protect against the

splash of liquids.

**Skin** Neoprene gloves are recommended.

**Engineering Controls** Provide adequate ventilation. Where reasonably practicable this should be achieved by the

use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits

suitable respiratory protection must be worn.

SDS Revision Date:

10/08/2014

**Other Work Practices** 

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

#### 9.2. Other information

No other relevant information.

## 10. Stability and reactivity

**SDS Revision Date:** 

10/08/2014

#### 10.1. Reactivity

Hazardous Polymerization will not occur.

#### 10.2. Chemical stability

Stable under normal circumstances.

### 10.3. Possibility of hazardous reactions

No data available.

#### 10.4. Conditions to avoid

Avoid exposure to heat and humidity.

#### 10.5. Incompatible materials

Composition: Avoid contact with strong acids, alkali or oxidizing agents.

#### 10.6. Hazardous decomposition products

Hydrogen chloride (if heated), carbon monoxide and carbon dioxide.

## 11. Toxicological information

#### 12.2. Persistence and degradability

There is no data available on the preparation itself.

#### 12.3. Bioaccumulative potential

Not Measured

12.4. Mobility in soil

No data available.

#### 12.5. Results of PBT and vPvB assessment

This product contains no PBT/vPvB chemicals.

12.6. Other adverse effects

No data available.

## 13. Disposal considerations

#### 13.1. Waste treatment methods

Do not allow into drains or water courses. Wastes and emptied containers should be disposed of in accordance with regulations made under the Control of Pollution Act and the Environmental Protection Act.

Using information provided in this data sheet advice should be obtained from the Waste Regulation Authority, whether the special waste regulations apply.
