#### Additional information

Full text of classification: see section 16

## 4. First-aid measures

#### 4.1. Description of first aid measures

#### **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice. In case of irregular breathing or respiratory arrest provide artificial respiration.

#### Following skin contact

After contact with skin, wash immediately with plenty of water and soap.Remove contaminated, saturated clothing immediately.

#### After eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.If eye irritation persists: Get medical advice/attention.

#### After ingestion

Seek medical advice immediately.Do NOT induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

In all cases of doubt, or when symptoms persist, seek medical advice.

Aquatic Chronic 2 H411

#### 4.3. Indication of any immediate medical attention and special treatment needed

## 5. **Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

Carbon dioxide Water mist Foam

Extinguishing media which must not be used for safety reasons:

strong water jet

5.2. Special hazards arising from the substance or mixture Gases/vapours, toxic

#### 5.3. Special protective equipment for firefighters:

Provide a conveniently located respiratory protective device.

## Additional information

The danger areas must be delimited and identified using relevant warning and safety signs. Cool closed containers that are near the source of the fire.Do not allow water used to extinguish fire to enter drains, ground or waterways. Treat runoff as hazardous.

## 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate affected area. Remove persons to safety. Do not breathe vapours. See protective measures under point 7 and 8.

#### 6.2. Environmental precautions

Do not allow to enter into surface water or drains in significant quantities. If the product contaminates lakes, rivers or

Article No.:21017POLYPrint date7/20/2016RevisVersion1.2Issue

POLYCOL VERSA-TEX PLUS Revision date 7/20/2016 Issue date 7/20/2016

Page 3/6

sewages, inform competent authorities in accordance with local regulations. Provide good ventilation.

## 6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see chapter 13).

## 6.4. Reference to other sections

Observe protective provisions (see chapter 7 and 8).

## 7. Handling and storage

## 7.1. Precautions for safe handling

#### Advices on safe handling

Avoid contact with skin and eyes. Do not inhale vapours or mist. Do no eat, drink or smoke when using this product. Personal protection equipment: refer to chapter 8.

## 7.2. Conditions for safe storage, including any incompatibilities

#### Technical measures and storage conditions

Keep container tightly closed in a cool, well-ventilated place.

#### Requirements for storage rooms and vessels

Always keep in containers that correspond to the material of the original container. Ensure adequate ventilation of the storage area.

#### Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

#### Additional information

VCI-storage class, see Chapter 15

#### 7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

## 8. Exposure controls / Personal protection

#### 8.1. Control parameters

## Occupational exposure limit values:

n.a.

## 8.2. Exposure controls

#### Personal protection equipment

#### **Respiratory protection**

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).

#### Hand protection

Wear chemical resistant protective gloves.

#### Eye protection

Wear closed protection glasses.

Protective clothing

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

#### **Protective measures**

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

#### **Environmental exposure controls**

Do not allow to enter into surface water or drains in significant quantities.

#### 9. **Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

## 12. Ecological information

## overall evaluation

Classification for mixtures and used evaluation method according to GHS Do not store at public landfills.

#### 12.1. Toxicity

No information available.

#### Long-term Ecotoxicity

Toxicological data are not available.

12.2. **Persistence and degradability** Toxicological data are not available.

## 12.3. Bioaccumulative potential

Toxicological data are not available.

#### **Bioconcentration factor (BCF)**

Toxicological data are not available.

12.4. **Mobility in soil** Toxicological data are not available.

#### 12.5. Results of PBT assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6. Other adverse effects

## 13. **Disposal considerations** 13.1. Waste treatment methods Appropriate disposal / Product Recommendation Dispose of waste according to applicable legislation. packaging Recommendation Non-contaminated packages may be recycled. Vessels not properly emptied are special waste. 14. Transport information No dangerous good in sense of this transport regulation. 14.1. UN number n.a. 14.2. UN proper shipping name 14.3. Transport hazard class(es) n.a. 14.4. Packing group n.a. 14.5. Environmental hazards Land transport (ADR / RID / DOT): n.a. Marine pollutant n.a. 14.6. Special precautions for user Transport always in closed, upright and safe containers. Make sure that persons transporting the product know what to do in case of an accident or leakage. Advices on safe handling: see parts 6 - 8 Additional information Land transport (ADR / RID / DOT): tunnel restriction code

#### Sea transport (IMDG)

EmS-No. Packaging >30 I n.a.

## 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

not applicable

## 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

## Observe in addition any national regulations!

calculated with mixing rule

Substance/product listed in the following inventories: Listed in TOXIC SUBSTANCES CONTROL ACT (TSCA)

## 15.2. Chemical Safety Assessment

Chemical safety assessments for substances in this preparation were not carried out.

## 16. Other information

## Full text of classification in section 3:

Serious eye damage/eye irritation	Causes serious eye irritation.
SKIN CORROSION/IRRITATION	Causes skin irritation.
Hazardous to the aquatic environment	May cause long lasting harmful effects to aquatic life.
Specific target organ toxicity (single exposure)	May cause respiratory irritation.
respiratory or skin sensitisation	May cause an allergic skin reaction.
Hazardous to the aquatic environment	Toxic to aquatic life with long lasting effects.
	Serious eye damage/eye irritation skin corrosion/irritation Hazardous to the aquatic environment Specific target organ toxicity (single exposure) respiratory or skin sensitisation

#### Additional information

Classification for mixtures and used evaluation method according to GHS

The information supplied on this safety data sheet is correct to the best of our knowledge. Without written approval, the product must not be used for purposes different from those mentioned in chapter 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
